| <input type="checkbox"/> | <b>Short</b> (no more than 3-4 minutes) DVD or video showing your riding skill. To include a walk, trot and canter plus two 180 degree turns at a canter. |

\* Referees must be able to accurately describe your riding ability

# An interview is required as a normal part of the application process at Tocal. They are fairly informal and designed to make sure that the course and residential living (if requested) are the best fit for the student. An Open Day is the ideal time for the prospective student to have an interview and ask questions about the course or College, one-on-one with staff.

Even if the prospective student is unsure, we recommend an interview when the opportunity is available as there is no obligation to follow through with an application. Those wanting interviews during an Open Day will be approached by a staff member and invited for a chat.

If school reports and references are available then they can be brought to the interview or provided later. Similarly, students interested in the Stock Horse Breeding & Training course can bring their riding video with them to the interview or provide it later. The requirements of the riding video will also be described at interview if a prospective student is unsure of what is needed.

Interviews at other times can be arranged but may be difficult for those living a distance from the College. In specific circumstances a telephone interview may be acceptable.
